¹ Only Associate Members who have explicitly agreed to their information being published have been listed here.

Intel Corp

Intel (NASDAQ: INTC) is a world leader in computing innovation. The company designs and builds advanced integrated digital technology platforms which serve as the foundation for the world's computing devices. Our platforms are used across the compute continuum, in notebooks (including Ultrabook™ devices), 2 in 1 systems, desktops, servers, tablets, phones, and the Internet of Things (including wearables, retail devices, and manufacturing devices). We also develop and sell software and services primarily focused on security and technology integration. As a leader in corporate responsibility and sustainability, Intel manufactures the world's first commercially available conflict-free microprocessors. Additional information about Intel's conflict-free efforts available at conflictfree.intel.com

Motorola Solutions, Inc

Motorola Solutions is a leading provider of mission-critical communication solutions and services for enterprise and government customers. Through leading-edge innovation and communications technology, it is a global leader that enables its customers to be their best in the moments that matter. Motorola Solutions trades on the New York Stock Exchange under the ticker "MSI." www.motorolasolutions.com

Qualcomm Technologies, Inc

Qualcomm Incorporated is the world leader in 3G, 4G and next-generation wireless technologies. Qualcomm Incorporated includes Qualcomm's licensing business, QTL, and the vast majority of its patent portfolio. Qualcomm Technologies, Inc., a wholly-owned subsidiary of Qualcomm Incorporated, operates, along with its subsidiaries, substantially all of Qualcomm's engineering, research and development functions, and substantially all of its products and services businesses, including its semiconductor business, QCT. For more than 25 years, Qualcomm ideas and inventions have driven the evolution of digital communications, linking people everywhere more closely to information, entertainment and each other. For more information, visit Qualcomm's website, <https://www.qualcomm.com/home>

TPV Technology Ltd

TPV Technology was founded in Taiwan in 1967. With 13 manufacturing bases worldwide and an annual shipment of approximately 60 million units, TPV has grown from a small display factory to the world's largest manufacturer of LCD monitors with a steady market share of over 30%. TPV adheres to a two-pronged OBM/ODM business model: we distribute display products under our own brands AOC, AGON, Envision and under a long-term exclusive license agreement with Philips for global monitors, TVs, audio-visual products, and mobile phones, as well as design and manufacture products for some of the best-known TV and PC brands in the world. For more information, visit TPV Technology Ltd <https://www.tpv-tech.com/en/index.html>
